Profile Summary

Motivated and detail-oriented **Java Developer** with hands-on experience in **Java, JDBC, MySQL, Node.js, HTML, CSS, and JavaScript**. Strong understanding of **Object-Oriented Programming (OOP)** principles and web development fundamentals. Adept at designing efficient, scalable applications and continuously improving coding and problem-solving skills. Passionate about building impactful software solutions through clean, maintainable code.

Technical Skills

- **Programming Languages:** Java, JavaScript.
 - **Web Technologies:** HTML, CSS, Bootstrap, Tailwind.
 - **Databases:** MySQL, MongoDB.
 - **Framework:** Collection, Hibernate, Express.js.
 - **Developer Tools:** Git, GitHub, Visual Studio, Eclipse IDE.
 - **Core Concepts:** Object-Oriented Programming (OOP), Exception Handling, Collections, Multithreading, JDBC, Responsive Web Design, Web Application.
-

Education

Bachelor of Engineering in Computer Engineering (SPPU)

Nashik

Late.G.N. Sapkal College of Engineering, Nashik

Nov 2022 – June 2025

- Final CGPA: 6.49

Diploma in Computer Technology (MSBTE)

Nashik

Shri.H.H.J.B. Polytechnic, Chandwad Dist -Nashik.

June 2019 – Oct 2022

- Final Percentage: 75%
-

Projects

Vehicle Rental System (Core Java) -

- Designed and implemented a console-based vehicle rental application using **Core Java**.
- Applied **OOP principles** such as inheritance, polymorphism, and encapsulation to ensure modularity.
- Developed features for vehicle booking, payment processing, receipt generation, and email confirmation.

Spotify Clone – Java, MySQL, JDBC

- Built a console-based music streaming platform supporting user registration, login, and playlist management.
 - Integrated **MySQL** for persistent data storage and implemented **DAO architecture** for modular design.
 - Enhanced user experience with secure authentication and efficient data retrieval mechanisms.
-

Work Experience

Web Designing Intern – SoftCrowd Technologies, Nashik

- Developed a responsive **BookMyShow front-end clone** using **HTML, CSS, JavaScript, and Bootstrap**.
 - Collaborated with the design team to create user-friendly layouts and improve UI responsiveness.
 - Contributed to project delivery by optimizing page structure and ensuring cross-device compatibility.
-

Certifications:

- **Full Stack Java Development** - Linkcode Technologies, Pune
- **Java Programming** – Infosys Springboard
- **TCS ion Career Edge - Young Professional** – TCS ion
- **Web Designing** – SoftCrowd Technologies, Nashik
